

## Streaming since the beginning.

The famous ViewCast Osprey 100, the card that helped start the streaming media revolution, is still an excellent choice for budget-conscious users with a need to capture and deliver video from composite and S-Video sources.

### Ideal for video streaming.

Originally designed to capture video for streaming, the Osprey 100 is ideal for capturing video-only camera feeds:

- *Security, such as ATM machines*
- *Medical and scientific equipment*
- *Surveillance equipment*

### Capture and streaming possibilities.

With the Osprey 100, you can plug in any standard video source, such as a VCR, camera or camcorder, and view crisp video on a PC. Use multiple Osprey 100 cards simultaneously in a single system or mix and match other Osprey cards for more input options.

#### Ideal Solutions

- > Security
- > Enterprise
- > Government
- > OEM systems integrators

#### Applications

- > Medical
- > Live streaming
- > Scientific
- > ATM machines
- > Video on Demand
- > Surveillance

#### Key Attributes

- > Enables multiple cards to stream multiple video sources on a single workstation
- > Supports most popular video APIs
- > Captures full-frame video at 30 frames per second providing full standard-definition resolution
- > Drivers available for Microsoft® Windows® operating systems

## OSPREY® 100

Video Capture Card

### Driver Support:

- Microsoft® DirectShow® API

### Inputs:

Video:

One channel with 4 switchable inputs:

- 3 composite (RCA)
